DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of claims 39-55 in the reply filed on 4/28/2009 is acknowledged.

Response to Arguments

2. Applicant's arguments, filed 12/22/2008, with respect to the rejection of claims 39-55 and the combination of Munyan and Brugger have been fully considered and are persuasive. Accordingly, that rejection has been withdrawn.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 39-53 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.
5. Claims 39-52 are directed to a system comprising an "authoring system" and a "library server" including only "logic" for performing various functions. The claimed "logic" is not limited to hardware by the specification or the claims. Therefore, the broadest reasonable interpretation of the claims includes at least some software-only

embodiments. Since the claims are not limited to statutory subject matter, they are non statutory.

6. Claim 53 is similarly directed to a library server comprising only "logic", And is rejected under a similar rationale as claims 39-52.

Allowable Subject Matter

7. Claims 54 and 55 are allowed.
